

Geography

Due: 15 pts in Labs/Projects

As we will be talking about various places on the planet throughout the year, a knowledge of some basic geography is important. As a refresher of skills you have learned in the past, please be familiar with the following terms/locations. Some locations are where major ecological disasters occurred. Label them accordingly. Additional assignment below.

Label on each map: North,
South, East, West

Equator (if shown)
Atlantic Ocean Pacific
Ocean Indian Ocean
George's Banks Grand
Banks
Gulf of Mexico Gulf
Stream North America
